

INNOVATE FINANCE

Innovate Finance structures and facilitates asset finance options on the equipment that we supply. If a company requires new equipment but does not have enough capital required at the point of purchase as it may have already spent the budget for the year, leasing may be a very good option to consider.

The fundamental principle of leasing is that the customer acquires immediate access to the desired equipment while spreading the cost over a period ranging from 12 to 60 months. At the end of the contract period the customer has the option of returning the leased equipment back to the leasing company, replacing it or extending the contract. Innovates finance option on equipment is designed to allow upgrading, additions or exchange of equipment without necessarily altering your budgeted rental amount.

Advantages of renting equipment through Innovate:

- Minimum Cash Outlay
- Flexible payment terms (12-60 months)
- Protection against Obsolesce
- Lack of edibility through regular bank financing is no longer an issue
- 100% tax deductible
- Ownership Clause after rental period has elapsed.

We look forward to a long lasting and mutually beneficial association with your company.

The attractive alternative
